

DEFIANT 233

The Defiant 233 with its deeper more aggressive hull design was designed with offshore capabilities in mind.

The 233 remains on plane as slow as 10mph whilst still capable of speeds in excess of 45mph.

Deck space on the 233 is amazing, allowing you to easily walk around with plenty of room for coolers and accessories. The large step down area adds additional storage, the use of a porta potti or a quick change of clothes.
