

SKIFF

1480-1890-2090

Maritime's rolled edge skiffs are simple, uncomplicated boats with maximum interior space, self-bailing cockpits and hulls that are fuel efficient and easily propelled with low to moderate horsepower.

Like all our boats they are built strong, "unsinkable", are extremely dry running and have proven to be unusually seaworthy.

1890/2090 SKIFF
