

PATRIOT 233

The 233 Patriot offers maximum wind and weather protection, yet provides all the walk-around fishing conveniences of a center console.

The roof top gives protection from sun and rain, and with the addition of side and rear curtains, you have full weather protection for those inclement weather days. Below, the center cabin has a 71" berth that gives ample room for gear storage or even a place to catch some sleep on an overnight fishing trip.
